

## Comparing Study Abroad/Away Program Costs

Use the chart below to estimate the difference in total cost of attendance between Carroll University and your study abroad/away program of choice. When comparing programs it is important to pay close attention to exactly what is included in the program fee (i.e. flight, housing, meals, etc.). Do not forget to consider the currency exchange rate and/or cost of living in the host city. A helpful website for up-to-date exchange rate conversions is <http://www.xe.com/>. A helpful website for comparing the cost of living: <http://www.numbeo.com/cost-of-living/>.
